# After completing this lesson, you will be able to:

- Customize Internet Explorer's security settings.
- Set Content Rating preferences.

#### **Default Security Zones**

Zone	Description	Security Level
Local Intranet	Resources that are part of your intranet.	Medium
Trusted Sites	Sites containing content you trust.	Low
Restricted Sites	Sites you don't trust.	High
Internet	Any files not on your PC, intranet, or assigned to another zone	Medium

## **Security Levels**

High	Blocks potentially dangerous content or processes from downloading onto your computer.
Medium	Provides a Security Warning dialog box when you visit a site that attempts to download content.
Low	Ignores potentially dangerous content.
Custom	Enables you to define what types of information can be downloaded.

#### **Reviewing Security Zones**

Internet Options	×
General Security Content Connections Programs Advanced	
Select a web content zone to specify its security settings.	
Internet Local intranet Trusted sites Restricted sites	
Internet This zone contains all Web sites you <u>S</u> ites haven't placed in other zones	
Security level for this zone     Move the slider to set the security level for this zone.     Medium     Safe browsing and still functional     Prompts before downloading potentially unsafe content     Unsigned Active & controls will not be downloaded	
- · · Appropriate for most Internet sites
